

Section 1

TABLE OF CONTENTS

“ . . . [M]ineral fertilizer is essential to feed around half of the world’s population, and will be fundamental to ensure global food security through the 21st century.”

2013 U.N. Report “Our Nutrient World”

(commissioned by the U.N. Environment Programme, 2013)

Environmental Resource Permit (ERP) Tables

Table Description **Table No.**

GENERAL

Adjoining Property Owners 1-1

Acreage by County, Range and Section 1-2

Project Meeting Log (DEP meetings only) 1-3

2. EXISTING CONDITIONS

Land Use and Vegetation

Site Land Use Cover – Vegetation Cover

Reserved 2-1-A-i

FDEP 2-1-A-ii

Reserved 2-1-B

Jurisdictional Wetlands and Streams

ACOE Wetlands

Reserved 2-2-A-i

Reserved 2-2-A-ii

Reserved 2-2-A-iii

ACOE Streams

Reserved 2-2-B-i

FDEP Wetlands

FDEP JD Wetland and OSW Impact Summary 2-2-C-i

FDEP JD Wetland Impact Summary by ID 2-2-C-ii

FDEP Streams

Stream Impact Summary 2-2-D-i

Land Cover within 60 feet of Streams 2-2-E

Existing Water Quality & Quantity

Groundwater Quality 2-3-A

Groundwater Monitoring Stations Information 2-3-A-i

Surface Water Quality 2-3-B

Surface Water Monitoring Stations Information 2-3-B-i

Withdrawal Wells Onsite and within 500 ft 2-3-C

Environmental Resource Permit (ERP) Tables (continued)

Table Description **Table No.**

Wetland Assessment

Reserved 2-4-A
 UMAM Functional Gain vs. Functional Loss Summary 2-4-B

Soils

Soils Descriptions Found on the DeSoto Mine Site..... 2-5-A

Listed Species

State and Federal Listed Wildlife Observed on Site 2-6-A
 Federal and State Listed Wildlife Species with the Potential to Occur On-Site..... 2-6-B
 Summary of All Listed Species / Wildlife Likelihood of Occurrence..... 2-6-C
 State and Federal Listed Plant Species Observed on Site..... 2-6-D

3. MINE PLAN DESCRIPTION

Mine Impact Summary

Reserved 3-1-A
 Mine Impact Summary 3-1-B

Mine Plan Summary 3-2

Water Balance Example (South Fort Meade Mine) 3-3

Waste Disposal

Clay Settling Area Summary 3-4-A
 Clay Settling Area Filling Summary..... 3-4-A-i
 DeSoto Estimated Tailings Schedule..... 3-4-B

Access Corridor Stream Crossings..... 3-5

4. RECLAMATION

Mine Reclamation Schedule..... 4-1

Minimum Reclamation Schedule..... 4-2

Environmental Resource Permit (ERP) Tables (continued)

<u>Table Description</u>	<u>Table No.</u>
Proposed Wetland Planting Plans	
Proposed Plantings in Bay and Gum Swamps (FLUCFCS 611 and 613)	4-3-A
Proposed Plantings in Inland Ponds and Sloughs (FLUCFCS 616) and Mixed Wetland Hardwoods (FLUCFCS 617).....	4-3-B
Proposed Plantings in Cypress Wetland Forests (FLUCFCS 621).....	4-3-C
Proposed Plantings in Wetland Forested Mixed (FLUCFCS 630).....	4-3-D
Proposed Herbs to be Planted in Freshwater Marsh (FLUCFCS 641)	4-3-E
Proposed Herbs to be Planted in Wet Prairie Marsh or Ephemeral Wetlands (FLUCFCS 643)	4-3-F
Proposed Herbs to be Planted in Shrub Marsh (FLUCFCS 647)	4-3-G
Proposed Plantings in Hydric Pine Flatwoods (FLUCFCS 625).....	4-3-H
Proposed Plantings in Hydric Pine Savanna (FLUCFCS 626).....	4-3-I
Proposed Upland Planting Plans	
Proposed Plantings in Palmetto Prairie (FLUCFCS 321).....	4-4-A
Proposed Plantings in Pine Flatwoods (FLUCFCS 411).....	4-4-B
Proposed Plantings in Xeric Oak Scrub (FLUCFCS 421) and Sand Live Oak (FLUCFCS 432).....	4-4-C
Proposed Plantings in Live Oak and Temperate Hardwood (FLUCFCS 427 and 425).....	4-4-D
Proposed Plantings in Hardwood Conifer Mixed (FLUCFCS 434)	4-4-E
Proposed Plantings in Cabbage Palm Hammock (FLUCFCS 428).....	4-4-F
Proposed Plantings in Upland Forests and Mixed Hardwoods (FLUCFCS 420 and 438).....	4-4-G

NOTE: All Tables listed in Italicized and Blue Font are reserved numbers and are not used in this ERP/CRP Application.

Environmental Resource Permit (ERP) Figures

<u>Figure Description</u>	<u>Figure No.</u>
<i>1. Reserved</i>	<i>1</i>
2. TYPICAL ACCESS CORRIDOR - CROSS SECTION VIEW	2
3. DITCH AND BERM	
Ditch and Berm System Example.....	3-A
Typical Ditch and Berm Cross Section.....	3-B
<i>4. Reserved</i>	<i>4</i>
5. TOP SOILS, MULCH, AND COMPOST	
Alderman Bay Topsoil.....	5-A
Native Sod.....	5-B
Maron Run – Mulch.....	5-C
Mining Unit P – Green Manure	5-D
<i>6. Reserved</i>	<i>6</i>
7. RECLAIMED WETLAND TYPICAL CROSS SECTION	
Typical Cross Section Drawing of Reclaimed Bay/Gum Swamps (611/613).....	7-A
Typical Cross Section Drawing of Reclaimed Mixed Wetland Hardwood (617)	7-B
Typical Cross Section Drawing of Reclaimed Cypress (621)	7-C
Typical Cross Section Drawing of Reclaimed Wetland Forested Mix (630).....	7-D
Typical Cross Section Drawing of Reclaimed Freshwater Marsh (641)	7-E
Typical Cross Section Drawing of Reclaimed Wet Prairie (643).....	7-F
Typical Cross Section Drawing of Reclaimed Shrub Marsh Wetland (647).....	7-G
Typical Cross Section Drawing of Reclaimed Inland Ponds & Sloughs (616)	7-H
Typical Cross Section Drawing of Reclaimed Hydric Pine Flatwoods/Hydric Pine Savanna (625/626).....	7-I
<i>8. Reserved</i>	<i>8</i>

Environmental Resource Permit (ERP) Figures (continued)

<u>Figure Description</u>	<u>Figure No.</u>
9. ALTERNATIVES ANALYSIS	
<i>Reserved</i>	9-A
Prioritized Streams.....	9-B
Prioritized Forested Wetlands.....	9-C
Prioritized Herbaceous Wetlands.....	9-D
Priority Streams and Wetlands and Key Landscape Areas.....	9-E
10. TYPICAL HYDROSTRATIGRAPHIC COLUMN.....	10
11. DESOTO COUNTY PHOSPHATE MINING OVERLAY	11

NOTE: All Figures listed in Italicized and Blue Font are reserved numbers and are not used in this ERP/CRP Application.

Appendices

<u>Appendix Description</u>	<u>Appendix No.</u>
1. GENERAL	
Legal Description	1-1
Agreements and Authorizations	1-2
Photos	
<i>Reserved</i>	<i>1-3-A-i</i>
<i>Reserved</i>	<i>1-3-A-ii</i>
Aerials (2012, 1940s).....	1-3-B-i
Financial Assurance	1-4
<i>Reserved</i>	<i>1-5</i>
Sustainability Report	1-6
<i>Reserved</i>	<i>1-7</i>
List of Acronyms	1-8
Demolition Policy	1-9
2. EXISTING AND POST CONDITIONS	
<i>Reserved</i>	<i>2-1-A</i>
Wetlands and Streams	
Wetlands	
Existing Wetland Cross Sections	2-2-A-i
<i>Reserved</i>	<i>2-2-A-ii</i>
Post Reclamation Cross Sections.....	2-2-A-iii
Post Reclamation Hydroperiod Modeling	2-2-A-iv
Post Reclamation Lake Cross Section	2-2-A-v
Streams	
Stream Report	2-2-B-i
Mine Fish Monitoring Report	<i>2-2-B-ii</i>
Stream Stage Hydrographs	2-2-B-iii

Appendix Description **Appendix No.**

Water Quality / Quantity

IWUP	2-3-A
Existing Piezometer Data.....	2-3-B
<i>Reserved</i>	<i>2-3-C</i>
<i>Reserved</i>	<i>2-3-D</i>
<i>Reserved</i>	<i>2-3-E</i>
Ardaman Water Balance Analysis	2-3-F
Soil Boring Logs and Slug Test Data	2-3-G
Recharge System Report.....	2-3-H
Setback Report	2-3-I
Example Plans (SPCC and BMP3).....	2-3-J

Wetland Assessment

ACOE	
<i>Reserved</i>	<i>2-4-A-i</i>
<i>Reserved</i>	<i>2-4-A-ii</i>
<i>Reserved</i>	<i>2-4-A-iii</i>
FDEP	
Impact UMAM Datasheets and 3-1 Forms	2-4-B-i
FDEP UMAM Presentation and Summary Data	2-4-B-ii
Mitigation UMAM Datasheets	2-4-B-iii
Habitat Descriptions.....	2-4-B-iv

Avoidance / Minimization and Reduction / Elimination Supporting Documents

<i>Reserved</i>	<i>2-5-A-i</i>
<i>Reserved</i>	<i>2-5-A-ii</i>
<i>Reserved</i>	<i>2-5-A-iii</i>
DeSoto	
<i>Reserved</i>	<i>2-5-B-i</i>
Pre-Wetland Assessment	2-5-B-ii

Wildlife

Wildlife Survey	2-6-A
Site Habitat Management Plan.....	2-6-B
<i>Reserved</i>	<i>2-6-C</i>
Research Studies – Wildlife Utilization of Reclaimed Land (FIPR).....	2-6-D

Appendices (continued)

<u>Appendix Description</u>	<u>Appendix No.</u>
Floodplains	
Mine Floodplain Report.....	2-8-A
Navigability Study	2-8-B
Hydrological Analyses	
Pre/Post Hydrological Modeling.....	2-9-A
Streamflow/Baseflow (Cumulative Impact) Analyses.....	2-9-B
Archeological / Historical Studies	2-10
3. MINE PLAN DESCRIPTION	
Stream Crossing Reports	
Access Corridors Alternatives Analysis	3-1-A
Rail Corridors Alternatives Analysis	3-1-B
Water Supply Pipeline Alternatives Analysis.....	3-1-C
Rail Spur Design/Wetland Impacts and Stormwater Management Plan	3-1-D
<i>Reserved</i>	<i>3-2</i>
Water Balance	3-3
Clay Settling Areas	
Life of Mine Waste Disposal Plan	3-4-A
Clay Characterization.....	3-4-B
GeoTechnical Analysis	3-4-C
Stream Reroute Designs	3-5
Ditch and Berm BMPs/Policies	
Mosaic’s Stormwater Ditch, Berm and Retention System Design Policy.....	3-6-A
DEP BMPs for Berms and Impoundments	3-6-B
Mosaic’s Stormwater Best Management Practices.....	3-6-C
Isopach Maps	3-7

Appendices (continued)

<u>Appendix Description</u>	<u>Appendix No.</u>
4. MITIGATION PLAN	
<i>Reserved</i>	<i>4-1</i>
DeSoto Mitigation	
<i>Reserved</i>	<i>4-2-A</i>
Horse Creek Enhancement Plans	4-2-B
Conservation Easements	
Conservation Easement Template.....	4-4-A
<i>Reserved</i>	<i>4-4-B</i>
Conservation Easement Management Plan Template.....	4-4-C
ACOE & FDEP Released Acres Total	4-5
Mitigation/Reclamation Successes	
Wetland SB-1 Stream Design Report	4-6-A
LMR-8	
LMR-8 Stream Design Report	4-6-B-i
LMR-8 Annual Monitoring Report.....	4-6-B-ii
South Bowlegs Creek Stream Creation Initial Report	4-6-C
Characterization of Forested Seepage Swamps of Mosaic Lands	4-6-D
Reclaimed WRAP and UMAM Report from AEIS.....	4-6-E
Reclamation White Papers	4-6-F
